LEADERS DISCUSS LABOR PROBLEMS

Wage and Hour Officials Meet Industry and Labor Group For Conferences

Atlanta, Sept. 18.—A series of informal conferences with industry and labor representatives to discuss proposals for redefining "Area Production" under the Fair Labor Standards Act, will be held by four national officials of the wage and hour and public contracts divisions, United States Department of Labor, in Atlanta, from September 23 to 26, inclusive, it was announced today by James G. Johnson, regional director.

The division will be represented by Thacher Winslow, acting deputy administrator; Harry Wells, director of the economics branch; Nathan Rubenstein, of the exemptions branch; Kenneth Melchior, from the solicitor's office, and regional officials from Atlanta, Jacksonville and Jacksonville.

These informal conferences are called in line with the administrator's statement, following the recent supreme court decision rejecting the former definition of "Area of Production" under the Fair Labor Standards Act, indicating his intention to proceed as rapidly as possible to re-define "Area of Production."

The purpose of these conferences is to discuss various proposals for re-defining "Area of Production" in order to obtain the views of industry and labor before finally drafting the definition on the basis of which a public hearing will be held at a later date.

"Any employer or union group interested in the subject of the conference may get in touch with me at the regional offices of the wage and hour and public divisions, U. S. Department of Labor, 249 Peachtree street, Atlanta," Director Johnson said.

The sessions will take place at the Henry Grady Hotel, Atlanta, on September 23 from 10 a. m. to 5 p. m., September 24 from 10 a. m. to 5 p. m., and September 25 from 9 a. m. to 12 noon," Director Johnson announced.

Friends of John and Sam DeNitto, prominent farmers of this community, regret to know of their illness. John DeNitto had been ill at his home for several weeks. Sam DeNitto, his brother, had an acute attack of appendicitis Monday and underwent an emergency operation in the Bulloch County Hospital.

Any Bulloch county farmer desiring terrace line running on his land, construction may make application to the AAA and receive these services at no cost to him.

Since a large percentage of the land will be plowed and a better terrace built, terraces should be built before breaking the land.

beets. During the season of peeling a short business session was held. Mrs. F. W. Hughes, the president, presided. It was unanimously voted to buy shades for some of the buildings on the sunny side of the building.

The next meeting will be held on Thursday afternoon, October 5th, at 3:30 o'clock.

REVIVAL SERVICES AT CHRISTIAN CHURCH

The officials of the Christian church here have announced that there will be a revival meeting at that church the first week in October. The services will begin Monday morning, Oct. 2, at 11 o'clock. The evening services will be about 8:15 o'clock. Rev. Ralph Drake, of Glenview, will be the preaching. The public is cordially invited.

W.C.T.U. MEETS

The Women's Christian Temperance Union held its September meeting in the Christian church Friday afternoon. Rev. F. J. Jordan gave an inspirational devotional, after which Mrs. H. G. Parrish and Mrs. G. P. Parrish gave articles on the following topics, respectively: "Rural Areas Greatest Curse" and "The Knockout and the Profits." At the close of the program Mrs. Cecil J. Olmstead sang, "My Jesus, I Love Thee." During the business session the following officers were elected to serve the ensuing year:

President, Miss Ethel McCormick; vice-president, Mrs. W. C. Cromley; secretary, Mrs. H. T. Brinson; treasurer, Mrs. C. B. Fontaine.

Mrs. W. C. Cromley, the retiring president, announced that she hoped that at the October meeting all dues would be paid and that our union would continue to be a "hold fast" union. Immediately twelve members present paid dues and two new members were listed. Plans were made to contact every member who was not present before October meeting so that the Bulloch W.C.T.U. would be fully paid up.

PARENT-TEACHER GROUP HOLD FIRST MEETING

The Parent-Teacher Association met in the cannery last week for the first meeting of the new scholastic year. About thirty ladies met to meet plans for the lunch room. In a little more than three hours they had prepared 298 quarts. The home economics girls, under the direction of Mrs. J. H. Hinton, assisted in the forenoon.

The Brooklet P.T.A. is to be commended for the ready response to help with the peers. A similar response was made last year when the association canned string beans and

EXERCISE CAUTION IN BUYING TRUCKS

Warning Is Given That Trucks Are Permitted Sold Only For Special Uses

Prospective purchasers of used trucks have been urged by the Savannah district Office of Defense Transportation to make certain before acquiring the vehicles that their proposed operation will meet all ODT requirements.

Since October 25, 1943, Clark T. Lyndon, ODT district manager at Savannah pointed out, persons who were not designated motor-carriers as of that date have been required to show that the operation of the truck is necessary to the war effort or to the maintenance of civilian economy.

Application for a certificate of war necessity must be made and the ODT granted before gasoline allotments are made. Mr. Lyndon reminded, or, in the case of a new service, application for authority to inaugurate it must be made. These application blanks may be obtained from the ODT district office in Savannah.

Critical shortages of trucks tired and gasoline, the ODT official pointed out, make it necessary that only those operations deemed necessary to the war effort and essential civilian economy be approved and authority to operate a truck should be obtained by a prospective purchaser before he actually buys it.

Mrs. E. C. Smith and Mrs. J. O. Smith, of Ellabelle; Mrs. J. W. Butler, Mr. and Mrs. J. M. Lewis and family, Mrs. R. G. Hodges and sons, Ray and John Thomas, were guests of Mr. and Mrs. H. C. Burned Jr. Saturday.

LOSE INSURANCE BECAUSE NEGLECT

Large Percent Policyholders
Fail to Press Their Claims
In the Proper Manner

Hundreds lose part or all of their old-age or survivors insurance because they do not file claims promptly, according to J. W. Overstreet Jr., manager of the Savannah field office of the social security board. A recent survey in the south by the social security board showed out of twenty-seven thousand claims filed, over seven thousand failed to receive insurance payments because the worker or his dependents failed to file claims within the period prescribed by law or because the worker had not been working long enough to be entitled to benefits.

There are two times when a worker or his family should visit the social security board office: (1) Contact your social security field office as soon as you have reached age 65, whether or not you continue working; (2) In the event an insured worker dies, his wife or other close relative should visit the social security board office to file a claim for old-age or survivors insurance.

Field office advice on how and when to file a claim for old-age and survivors insurance is absolutely free and gladly granted.

Smith Is Given Medal For Exemplary Service

Headquarters Panama Canal Department, Sept. 18.—Ffc. Edgar L. Smith, of Statesboro, Ga., has been awarded the Army's good conduct medal for exemplary service as an enlisted man in Col. Moore's jungle infantry of the Panama Mobile Force. The medal is presented as a reward for "faithful and exact performance of duty, efficiency through capacity to produce desired results and behavior deserving emulation."

Smith entered the Army in November, 1942, and has been on foreign service in this area since March, 1944.

FLAGS AVAILABLE FOR ALL WHO FELL

War Department Anxious
To Render This Service
To Families Of Deceased

Washington Sept. 16.—Senator Richard B. Russell has been advised by the War Department that for each member of our armed forces, regardless of his branch or service, who has died in service, the government provides an American flag measuring five feet by nine feet five inches which is presented to his family.

If the boy died in this country and his body was returned to his home for burial, the War Department presumes that the burial flag that accompanied the body was retained by his family.

Those boys, however, who died overseas were buried for the duration near where they died and in those cases a flag is available to their families upon simply filling out a brief application and presenting proof of death. The notice from the War Department, Senator Russell was told, received by the family is ample proof.

Those families who have not received a flag may obtain one by filling out form 2008 which can be procured from the nearest Veterans' Administration Office or the local post office.

The form should be mailed or taken to the nearest Veterans' Administration office, with notice of death, and a statement that a flag has not been received.

Senator Russell feels that those who have not received flags will wish to obtain one at the earliest moment, and he will be glad to assist in that connection.

"I think it most fitting," asserted Senator Russell, "that the War Department should offer to the families of those who have made the supreme sacrifice this emblem which is symbolic of all for which we fight."

College Will Begin Courses in Typing

Announcement was authorized this week by Georgia Teachers College that beginners' courses in typing at the college will be open to men and women of Statesboro who wish to take courses of this nature.

Mrs. Veda Gibson, instructor in business and commercial education, will have a course in the college each morning at 9:45 for beginners in typing. Several women in Statesboro have expressed a desire to have an opportunity to study typing and the college has agreed to open the class to adults.

Those who are interested in a beginner's class in typing should get in touch with Mrs. Gibson at the college.

Harville Installs A One-Row Corn Picker

Bulloch county will have its first mechanical corn picker in operation this fall. K. H. Harville has purchased a one-row picker in Decatur and is going for it this week.

Mr. Harville was one of the first farmers in the county to start with tractors in cultivating crops. He immediately followed this move with other power equipment of various types and kinds found in this section.

Field office advice on how and when to file a claim for old-age and survivors insurance is absolutely free and gladly granted.

In the Selection
of a Monument

Monuments are more than mere tokens of marble. They are personal tributes to the memory of our loved ones. Being happy today is the memory of the world.

That is why great care should be taken in the selection of a design. It is a symbol as well as a memory, and the ideal monument is one that symbolizes the character of the one it commemorates.

Many years experience enable us to give you sound advice in the selection of an appropriate design.

..Nobody's Business..

(By GEE MCGEE, Anderson, S. C.)

THERE IS NO HARM IN HOPING

"Of all the fool things our dear old government has ever done, creating the daylight savings time takes the dumplings. If labor were working (while not striking) 48 to 56 hours per week, there would be a little speck of sense in daylight savings time. Where we have a 40-hour week and from two to three shifts on all industrial jobs, daylight savings time has not helped as much as a sneeze.

Daylight savings time reminds us of a guy with a dollar in his left pants pocket . . . who shifts it over to his right pants pocket . . . and then cackles like he's laid an egg and done something wonderful and increased his assets. Getting up an hour earlier to go to work on the first or second or third shift doesn't save anybody anything or any time or any electric lights or any coal or any sleep or any nothing.

We will have to put up with this until A. H. (After Hitler), but as soon as the war is over, we want to see daylight savings time abolished. Next the FEPC ought to be smothered to death. And it wouldn't hurt much to stop spending money for government control that doesn't help any person or thing except the enforcing element.

As soon as peace is declared, folks will expect gravy trains to be passing their front doors every minute. If there should be any trains, there might not be any gravy on them. Wartime wages can't last. Jobs won't be found around every corner. Third shifts will be the first to go. Second shifts will likewise go if labor demands more than capital can afford to pay, and all those women we now have at work ain't going to like it if they have to stay at home and keep house and be forced to beg the old man for a dime or maybe a quarter, if he happens to have either. (P. S. Keep your weather eye on the "America First" group.)

FLAT ROCK KNEWS AND VIEWS

Mr. slim chance, who got defeated at the poles of the primary in July is recovering slowly from the shock, but he does not enjoy his defeat. He is not quite as nervous as he was the first few days after the election and is chewing considerably less tobacco. He says the next time he depends on labor and the c.l.o. for success, he will not count his chickens before they are laid.

cotton picking is the order of the day, the children and wimmin folks are doing nearly all of the picking. miss jennie veeve smith turns out scholl right after big recess so's the kids can help gather the fleecy staple. nearly all of them were raised in the original, most of the men have spinal trouble or lame backs, while some of them can't bend over low enough to remove the locks from the bolls onner count of dizziness ansoforth.

cotton is not expected to advance so long as wimmin do not wear muslin clothes, and what they do wear is made out of rayon. and the guano makers put the farmers' guano in paper bags and the post office uses burlap thread instead of cotton twine for the cotton. the thing to substitutes for cotton, the thing to raise now-a-days is tobacco, hops for beer, sugar cane for licker, and anything else the public can't do without.

the all-day singing which was held at reboher church last sunday was a great success. it was voted to have it annually every year. mr. art square strained one of his vocal cords when he raised his voice up to "e" flat in "sweet bye and bye." dr. green says it will be well by the time the next singing match is pulled off enduring 1945.

LOST, STRAYED OR MISSING

deer m. editor: mr. art square has asked this corry spondent to rite or foam you and ask you if you will kindly carry a classy-fied "ad" in yore fine little paper about the car somebody stole out of his garage if he would promise to pay you as soon as said car has been returned. (p. s. he left his pocketbook in said car.)

you can depend on mr. square paying you as soon as he recovers his pocketbook. it was a 4-door ford with green fenders and black running gear and it had a leaky radiator and two of the window-glasses were broke out in the wreck he had last february and it will be re-possessed in october unless it is returned.

but if you will let him run the "ad" on 10 days credit, he will send you a full description of the said 1934

model ford when he hears from you in the premises. it was drove off in the nite time and had a full set of re-treads on it and the license number is 43-444 and one of the tail lights is missing.

when mr. square sends in his regular "ad" he will explain that the reward is 75 provided the ford is returned in good shape and full of gas like it was when it was stole, he paid 158 down on it and fixed the tires. he has lost two weeks looking for it from the defense job, but he seems to think getting his ford back is just about as important as winning the war against japan. rite or foam. the war against japan. rite or foam. the war against japan. rite or foam.

THINKING OUT LOUD

By the time this piece appears in print the war in Germany will probably be over or nearly so. Having lived in Washington for several months and having had an opportunity to meet and talk with many men supposed to be "in the know," we are of the opinion that Hitler & Company will have many helpers, sympathizers and boosters as soon as the shooting stops over there.

Some of our so-called BIG MEN have it under their skins to make a soft peace with Germany and her friends in crime. The American Firsters and the Save America's and many other shrouded organizations are only sleeping now; they are ready to come out bodily, joined by the CIO, and many other anti-American groups, and have their way or do what they can to destroy our democracy.

Watch out for the communistic element that will lay claim before very long that we caused the war; that the present administration brought on the war, and that capital demanded that we fight, and forced the issue. They will try to overthrow our government bunches of imaginary human beings, so's they can take over. Don't get it into your heads that those isolationists and anti-American schemes have become loyal citizens. They haven't changed; they have only hibernated for the duration.

Of course we hope for everything that's good. When our boys and girls come home we must stand by them, stick with them, and support them in all of their moves and efforts to maintain our equilibrium. As a matter of fact, we shall have to depend upon the returned fighters for our future safety. The guys that remained at home and caused riots and strikes and fomented political upheavals and sabotaged many of our war efforts will be the crowd to watch. Many of them are Hitler in sheep's clothing.

IT'S ALL OVER BUT THE DEBT

flat rock, sept. 12. government seed loan, washington, d. c. deer sirs:

you have told me of us seed-loan farmers that you are too grasping ansoforth. you should not have kivered my mule and my wife's cow and my cottonseed and my corn and my wife's auto in the mortgage and you for 3008 to raise a crop and 7 children with.

as information, the mule died, my wife's car was re-possessed in july, my cotton did not come up till all the other folks had laid by, and when my corn did shoot, it missed the stalk; you need not release anything from the said mortgage; it has more or less released itself, and besides that, the mule already had two kiverages on it to the man who sold it to us.

but, mr. seed loan man, please take notice that i will abide by the advice that candy-dats gave all of us: you crops that i might plant, that is, if i am fool enough to farm again. uncle sam should worry about security; he never took anny security for his lend-lease he made with our allies, great brittan and great mosie and china owe the u. s. over 5 thousand dollars, according to slim chance sr., who keeps up with things.

but you are welcome to the crops and stuff you kivered, the undersigned has moved to a cotton mill and has gone into defense work. if you hire my crop picked, please rite or foam jib fordor, to look after it for you. he has plenty of children, also some hamper baskets. love to all, bye, bye.
